

Garrett Luu

✉ galuu@ucsd.edu | ☎ (714) 823-5110 | 📍 La Jolla, CA | 🌐 garrettluu.github.io | 🌐 garrettluu

Education

University of California, San Diego

BS IN COMPUTER SCIENCE, MINOR IN MATHEMATICS, 3.1 OVERALL GPA

La Jolla, CA

2018 – 2022

Experience

Association for Computing Machinery (ACM)

TECHNICAL EVENT DIRECTOR

La Jolla, CA

Nov 2019 – Present

- Preparing to host hackathon workshop for Firebase for projected 100+ students
- Planning a workshop for Git and Unix for an expected 100+ students, provide foundational skills for future workshops

IEEE Quarterly Projects

SOFTWARE AND HARDWARE DEVELOPER → MENTOR

La Jolla, CA

January 2019 – Present

- Developed heart-rate monitoring glove and web application to display information
- Designed and assembled XY plotter device that draws images from svg files
- Collaborated in teams of 3 to design and build a project over the course of 9 weeks
- Mentored 3 teams of size 4-5 on design and development process

FIRST Robotics Competition

LEAD PROGRAMMER, PRESIDENT, DRIVER

Orange, CA

August 2014 – June 2018

- Developed control systems and autonomous spline paths for robots in Java
- Designed and wired control boards for robots using Fusion 360
- Coordinated tasks and activities in a team size of 10 using Agile Project Management

StayLinked

INTERN

Irvine, CA

August 2016

- Used HTML, CSS, with jQuery and JavaScript
- Designed a web-app for customizing toolbars for company's software, used in production for over 250 corporate clients
- Partnered with 2 other interns to develop web-app in 1 week

Skills

Programming Languages: Java, C, HTML, CSS, Javascript, Kotlin, ARM Assembly

Technologies/Frameworks: Git, Linux/Unix, Vim, jQuery, Node.js, Express, Electron, Firebase, React, React Native

Projects

Stakk

Firebase, Express, React, Node.js

FULL STACK DEVELOPER, PROJECT MANAGER

github.com/garrettluu/carpool

- SDHacks 2019 Project - Web application for finding study groups
- Collaborated in a team of 3 to design and build full-stack web application
- Guided team members through React frontend and the basics of backend development

Carpool

Firebase, Express, React, Node.js

BACKEND DEVELOPER, PROJECT MANAGER

github.com/garrettluu/carpool

- HackXX 2019 Project - Conceptual web application for decentralized ridesharing
- Collaborated in a team of 4 to engineer full-stack web application
- Lead team members through development process and in basics of HTML, CSS, Javascript, and Git

Cuboid

DEVELOPER

C

github.com/garrettluu/cuboid

- 3D graphics library for the TI-84 Plus CE calculator
- Written using the C toolchain for the TI-84 Plus CE
- Optimized previous issues with memory and speed

Awards

March 2018 **UCSD Chancellor's Scholarship**, Awarded to high-achieving, low-income students

UC San Diego

July 2018 **FIRST Robotics Competition SpaceX Scholarship**, Awarded to FIRST alumni based on software project involvement, one of 5 recipients

SpaceX

June 2018 **VPHS Mathematics Medallion Recipient**, Recognizes exceptional students in mathematics, one of 4 recipients

Villa Park HS
